

Welcome to Connected Life

Connected Life is your portal for connecting with your family and care providers, even when they can't be with you. This brief Getting Started guide will help you understand how to use Connected Life.

Life View is the iPad app that gives you access to your Connected Life family network. The app enables you to connect to:

- **Pictures** and **notes** from your family
- **Reminders**
- **Messages** and **pictures** from your care providers, care center, or community senior service organization (as applicable)
- **Video calls** with family members
- **Weather** information

Your family will help you get your iPad set up the first time. Then you're ready to enjoy and stay connected with them!

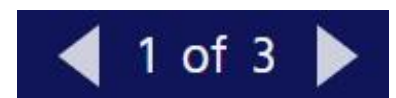

A few helpful tips

Any time you get lost or confused, click the round activation button a couple times until you see the Life View icon, then tap it.

When there is new content since the last time you looked, a red alert bell will be shown. Once you tap that button to view the new content, the alert bell will go away again.

To go to the next page (e.g. next picture), slide your finger left or right, across the middle of the screen. Or tap the arrow buttons on the top right.

Using the Interactive features

Home

Tap this button to see a greeting screen that also shows the date, time, and current temperature.

Family Fun

Tap this button to view Pictures and Notes from your family members.

Tap this colored button, if it appears, to see comments and fun interactions. You can join the fun and add your own comments.

You can also send your own Photos and Notes, by tapping the green NEW button at the top.

Reminders

Tap this button to see reminders that have been sent by your family and care providers to help you remember things you need to now today.

Video Call

Tap this button to make a video call to one of your family members. Simply tap on the picture of the person you want to reach. When your iPad asks if you to cancel or FaceTime, select **FaceTime**. If someone calls you, your iPad will answer automatically after 15 seconds. Tap the red button to decline the call

Tap this button if you want to end the call. If you do not see this button, tap the screen and it will appear. If your family member ends the call, you will return to Connected Life

Community Connections

Tap this button to see messages from your care providers, care center, or community senior service organization.

If none of these apply to you, this button will not appear.

Weather

Tap this button to see a current weather summary, a detailed forecast, and some interesting weather almanac information.
